REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-8 are allowable because the prior art fails to teach, in combination with other claimed limitations, a phase relation adjustment means for adjusting a phase relation between a fall timing of an input current fed to the semiconductor laser and a variation timing of a relaxation oscillation of the waveform of the optical signal output in accordance with a detection result of the waveform detection means to reduce the relaxation oscillation of a fall portion of the waveform of the optical signal output. Prior art teaches the method of suppressing relaxation oscillation of the output signal from an optical transmitter; by adjusting the pulse width of the pulse pump light so that it is equal the cycle of the relaxation oscillation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
